Table Manners in Islam

Be seated and avoid standing when eating or drinking

The Prophet SAW said:

“Do not Speak much without mentioning Allah, for too much speech without Allah hardens the heart & the hard hearted are the furthest of all people from Allah Most High” (Tirmidhi)

Winter Safety Tips

As the weather gets colder, we are more likely to catch cold. The best way to combat the cold weather are to dress appropriately and maintain a healthy lifestyle. What you eat and drink and exercise can make a big difference in your health this winter. It is also important to stay warm at home and when you go out.

The following steps are recommended for staying comfortable, preventing hypothermia and to keep your child healthy when working or playing outdoors.

- Wear layered clothing
- Protect your feet and hands
- Stay fit by exercising and eating well
- Eat high energy foods such as nuts and raisins
- If you stay indoors, avoid moving from hot environment to cold environments.
